

Business Excellence Award – Small

Kuch Stephenson Gibson Malo

Kuch Stephenson Gibson Malo is a growing Architectural and Engineering firm in Northwestern Ontario. KSGM has seen a 50% increase in personnel in this past year, which reflects the large volume of projects that they currently have under production and construction. This past year they were a beta tester for the development and launch of a new administrative software package, known as R-Form, that is specific to the field of architecture and engineering.

During a recent survey KSGM put forth, clients found that KSGM was very professional, provided quality designs, engaging, visionary and were evolving the industry. They have also implemented Building Information Modelling software, technology that allows for building designs to be three dimensional and in accurate detail. This allows KSGM a significant edge in quality control and production.

KSGM is involved in numerable community endeavours including the Lakehead Rotary, Thunder Bay Breast Cancer Support Group, Clean Green Beautiful Committee and Habitat for Humanity. We are pleased to congratulate Kuch Stephenson Gibson Malo for their successes this past year and are awarding them they Business Excellence Award- Small.
