

Looking Good Award
Janzen's Pharmacy

As many in our community have noticed, Janzen's Pharmacy has been revitalized over this past year. They have done extensive renovations both in their exterior and in their interior. As a cornerstone of their Bay and Algoma neighbourhood for more than 90 years, Janzen's Pharmacy has taken a leading role in improving their appearance and the overall appearance of their neighbourhood.

Exterior renovations include painting the entire building, developing and installing a comprehensive backlit awning system, installation of an exterior "Lifestyle Graphics Signage Program" and the installation of the large format Leaf/Drop, highlighting the refreshed Janzen' Pharmacy Brand identity.

Interior renovations include a redesign of the pharmacy workflow and layout which was developed through a prestigious Montreal-Based Pharmacy layout consulting firm. They completely gutted, constructed and redesigned their floor plan, including their retail and administration space. Their interior was professionally redecorated and there is new underlay and flooring.

Their bright new look is reflective of the needs of their existing customers, as well as an asset to attracting new customers to their business. Janzen's is an inspiration to other business, organizations and property owners within their community in promoting the transformation of their image and continuing to beautify the Bay and Algoma neighbourhood. Congratulations to Janzen's Pharmacy as this year's Looking Good recipient.
